

The power of micro-credentials

Want to know more?

What is a micro-credential?

"A micro-credential is the record of the learning outcomes that a learner has acquired following a small volume of learning. These learning outcomes have been assessed against transparent and clearly defined standards.

Courses leading to micro-credentials are designed to provide the learner with specific knowledge, skills and competences that respond to societal, personal, cultural or labour market needs.

Micro-credentials are owned by the learner, can be shared and are portable. They may be standalone or combined into larger credentials. They are underpinned by quality assurance following agreed standards in the relevant sector or area of activity." [EU definition](#)

The MCEU Hospitality project tackles vocational education challenges in hospitality by creating a system to identify skills gaps and integrate micro-credentials per EU policy. Collaborating with VET providers, employers, and stakeholders, it aims to expand across Europe and establish a transformative cooperative system.

Co-funded by
the European Union

The MCEU Hospitality project is funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Agency (EACEA).
